

7 March 2022

Metadata services: Current basic stock of the Integrated Authority File (GND)

Dear Sir or Madam,

The new basic stock/full copy of the Integrated Authority File (GND)¹ scheduled for February/March 2022 is available for downloading² in the format variants MARC 21 and MARC21-xml via WWW servers. One file was created for each GND entity on account of the large amount of data (total of approx. 9,1 million data records).

Since the last full copy the following data enrichment has been carried out:

- | Around 31,000 personal authority data records from the Carl von Ossietzky State and University Library (SUB Hamburg) have been imported into the GND. They encompass 18,400 new data records, around 10,100 merges and approx. 2,400 candidates.

The currently valid field description for the GND is available on our website³.

The "Umlenk_Loesch_GND ..." file with abbreviated data records is being provided as an additional service to track all redirects ("x" in position 5 of the leader in MARC 21) and deletions ("d" in position 5 of the leader in MARC 21) made since the previous full copy of the GND. This file is useful for customers who used the control number in MARC field 001 to determine the valid GND number for redirects when transferring the GND data.

The file is not relevant for customers who synchronise their GND collection with the GND, i.e. who constantly track redirects and deletions via the OAI interface or the weekly change service. Further information on the procedure for redirects and deletions can be obtained from our website⁴.

Information on provision

All updated full copies are made available at a stable link with no individual access code. An overview of the various full copies with their corresponding links, the formats offered and the frequency with which they are issued is available on our website⁵.

The data of the basic stock is also available via the Linked Data Service. Further information on this service and the link for downloading can be obtained from our website⁶.

If you have any further questions please do not hesitate to e-mail us at metadatendienste@dnb.de or phone us on +49 69 1525-1630.
